Medical Chemical Corp.
19430 Van Ness Ave.
Torrance, CA 90501
Customer Service: Phone (310)787-6800, (800)424-9394
FAX (310)787-4464
CHEMTREC Emergency Response Telephone Number: (800)424-9300
Note: The CHEMTREC phone number is only for emergencies involving spills, leaks, fire, exposure or accident. Please direct all other inquiries to our customer service phone number.

Section I - Product Identification
A solution of aluminum chloride in water.

Section II - Hazards Identification
Danger, causes severe skin burns and eye damage. Wash thoroughly after handling. Wear protective clothing, eye and face protection. If swallowed: rinse mouth but do not induce vomiting. Immediately contact a poison control center. Remove contaminated clothing and rinse skin with water. Wash clothing before reuse.

Safety Ratings

Health: Hazardous  Flammability: None  Reactivity: None  Contact: Slight
Recommended safety equipment: safety goggles, lab coat and proper gloves
Storage: General storage
NFPA Ratings
Health = 2  Flammability = 0  Reactivity = 0

Potential Health Effects
The toxicology of this compound has not been completely examined. It is presumed that the toxicity of this item is similar to other aluminum compounds. Aluminum chloride is a denaturer of protein and is corrosive to skin and eyes. Inhalation: Aluminum chloride is corrosive and irritating to the respiratory tract.
Ingestion: While the toxicity of this compound is low, large doses will cause nausea, vomiting, diarrhea, etc.
Skin contact: Irritating and corrosive.
Eye contact: Irritating and corrosive.
Chronic Exposure: Unknown.
Aggravation of preexisting conditions: Preexisting skin conditions may be aggravated.

Section IV - First Aid Measures

Inhalation: Unlikely to be a problem because of the low vapor pressure but aspiration of aerosol drops may be a problem. Remove from source of exposure and get immediate medical attention.
Ingestion: Do not induce vomiting. If the victim is conscious, administer large volumes of fluids. Never give anything by mouth to an unconscious person.
Skin Contact: Wash affected area with soap and water. Get medical advice if irritation develops.
Eye Contact: Rinse thoroughly with running water. Get medical advice if irritation develops.
Section V - Fire Fighting Measures

Flash point: Not applicable.
Flammable Limits: Not applicable.
Fire: Not normally a fire Hazard,
Explosion: Not Normally an explosion hazards.
Fire Extinguishing Media: Any means suitable for surrounding fire.
Special information: Pyrolysis will release corrosive aluminum oxides.

Section VI - Accidental Release Measures
Absorb with a suitable absorbent (such as paper towels) and store in a suitable container for disposal.

Section VII - Handling and Storage
Store in a closed container, protected from freezing.

Section VIII - Exposure Control/Personal Protection
Airborne Exposure Limits: See section III.
Ventilation System: Usually not required. When required, Refer to the ACGIH document, “Industrial Ventilation, a Manual of Recommended Practices” for details about ventilation.
Personal Respirator: Usually not required. In case of emergency, or when exposure levels are unknown, use a positive pressure, full face piece, air supplied respirator.
Skin protection: Protective gloves are recommended as part of good laboratory practice.
Eye Protection: Laboratory safety goggles or similar products are recommended as part of good laboratory practice.

Section IX - Physical and Chemical Properties
Boiling Point: 101 °C
Vapor pressure (mm Hg): 18 @ 20 °C
Vapor Density (air = 1): 0.6
Appearance and Odor: A clear, colorless liquid.

Section X - Stability and Reactivity
Stability: Freezes at low temperature.
Hazardous Decomposition Products: Nothing unusual.
Hazardous polymerization: Will not occur.
Incompatibilities: Nothing unusual.
Conditions to avoid: Excessive cold/heat and light.

Section XI - Toxicological Information
Aluminum chloride is an experimental teratogen

Section XII - Ecological Information
Environmental Fate: Not biodegradable
Environmental Toxicity: None expected.

Section XIII - Disposal Considerations
Waste disposal is usually not restricted but local ordinances vary. Dispose of contents and container in accordance with all government regulations.
Section XIV - Transportation Information

DOT/IATA Shipping name: Aluminum chloride solution  Hazard Class: 8  Packing Group: III
Hazard Label: Corrosive  Identification Number: UN2581

Bottles smaller than 32 Fl. Oz. are eligible to be shipped under ORM-D or limited quantity exemptions [49 CFR section 173.154(b), 173.154(C) and IATA Y841].
