Medical Chemical Corp.
19430 Van Ness Ave.
Torrance, CA 90501
Customer Service: Phone (310)787-6800, (800)424-9394
FAX (310)787-4464
CHEMTREC Emergency Response Telephone Number: (800)424-9300
Note: The CHEMTREC phone number is only for emergencies involving spills, leaks, fire, exposure or accident. Please direct all other inquiries to our customer service phone number.

Section I - Product Identification
An aqueous solution of silver nitrate.

Section II - Hazards Identification
Danger. Fatal if swallowed. Wash thoroughly after handling. Do not eat drink or smoke while using this product. If swallowed, immediately call a poison center and rinse mouth with water. Administer antidote for silver poisoning if available.

Safety Ratings
Health: Hazardous    Flammability: None    Reactivity: Reactive (Oxidizer)    Contact: Slight
Recommended safety equipment: safety goggles, lab coat and proper gloves
Storage: General storage
NFPA Ratings
Health = 2    Flammability = 0    Reactivity = 2

Potential Health Effects
Soluble silver salts are toxic. Ingestion will cause chemical burns, as well as damage to the gastrointestinal tract. Convulsions and death may result.
Inhalation: Corrosive.
Ingestion: Soluble silver salts are very toxic and ingestion causes chemical burns, nausea, vomiting, diarrhea, death etc.
Skin contact: Causes discoloration of the skin which may not be apparent until hours after contact.
Eye contact: Corrosive to the eye.
Chronic Exposure: Chronic exposure can cause silver poisoning including a permanent blue discoloration of the skin.
Aggravation of preexisting conditions: Unknown.

Section III - Composition/Information on Components

<td>1%</td>
</tr>
</tbody>
</table>

Section IV - First Aid Measures
Inhalation: Unlikely to be a problem because of the low vapor pressure. Remove from source of exposure and get medical attention for any breathing difficulty.
Ingestion: If the victim is conscious administer large amounts of water and get immediate medical attention. Do not induce vomiting. Never give anything by mouth to an unconscious person.
Skin Contact: Wash affected area with soap and water. Get medical advice if irritation develops.
Eye Contact: Rinse thoroughly with running water. Get medical advice if irritation develops.
Section V - Fire Fighting Measures

Flash point: Not applicable.
Flammable Limits: Not applicable.
Fire: Not normally a fire Hazard, but silver nitrate is an oxidizer and can react with organic materials.
Explosion: Not Normally an explosion hazard.
Fire Extinguishing Media: Any means suitable for surrounding fire.
Special information: Pyrolysis will release corrosive oxides.

Section VI - Accidental Release Measures

Absorb with a suitable absorbent and store in a suitable container for disposal.

Section VII - Handling and Storage

Store locked up. Store in a closed container, protected from freezing.

Section VIII - Exposure Control/Personal Protection

Airborne Exposure Limits: See section III.
Ventilation System: Usually not required. When required, Refer to the ACGIH document, “Industrial Ventilation, a Manual of Recommended Practices” for details about ventilation.
Personal Respirator: Usually not required.
Skin protection: Protective gloves are required.
Eye Protection: Laboratory safety goggles or similar products are required.

Section IX - Physical and Chemical Properties

Boiling Point: 100 °C
Vapor pressure (mm Hg): 18 @ 20 °C
Vapor Density (air = 1): 0.6
Appearance and Odor: A clear, colorless liquid.
Density: 1.01 g/ml
Evaporation Rate (water = 1): 1
Solubility: Infinitely miscible with water

Section X - Stability and Reactivity

Stability: Freezes at low temperature.
Hazardous Decomposition Products: Nothing unusual.
Hazardous polymerization: Will not occur.
Incompatibilities: Nothing unusual.
Conditions to avoid: Excessive cold/heat and light.

Section XI - Toxicological Information

None relating to normal exposure. Silver nitrate is toxic by ingestion

<table>
<thead>
<tr>
<th>Ingredient</th>
<th>Known Carcinogenicity?</th>
<th>Anticipated?</th>
<th>IARC Category</th>

</thead>
<tbody>
<tr>
<td>Silver Nitrate</td>
<td>No</td>
<td>No</td>
<td>None</td>
</tr>
</tbody>
</table>

Section XII - Ecological Information

Environmental Fate: Not biodegradable
Environmental Toxicity: Toxic to aquatic organisms

Section XIII - Disposal Considerations

Waste disposal of silver compounds is often restricted but local ordinances vary.. Silver compounds are often recycled because of their high economic value. Dispose of contents and container in accordance with all government regulations.
Section XIV - Transportation Information
Not regulated.

Section XV - Regulatory Information
